

# Decon's contribution to the CELESTYAL DISCOVERY project

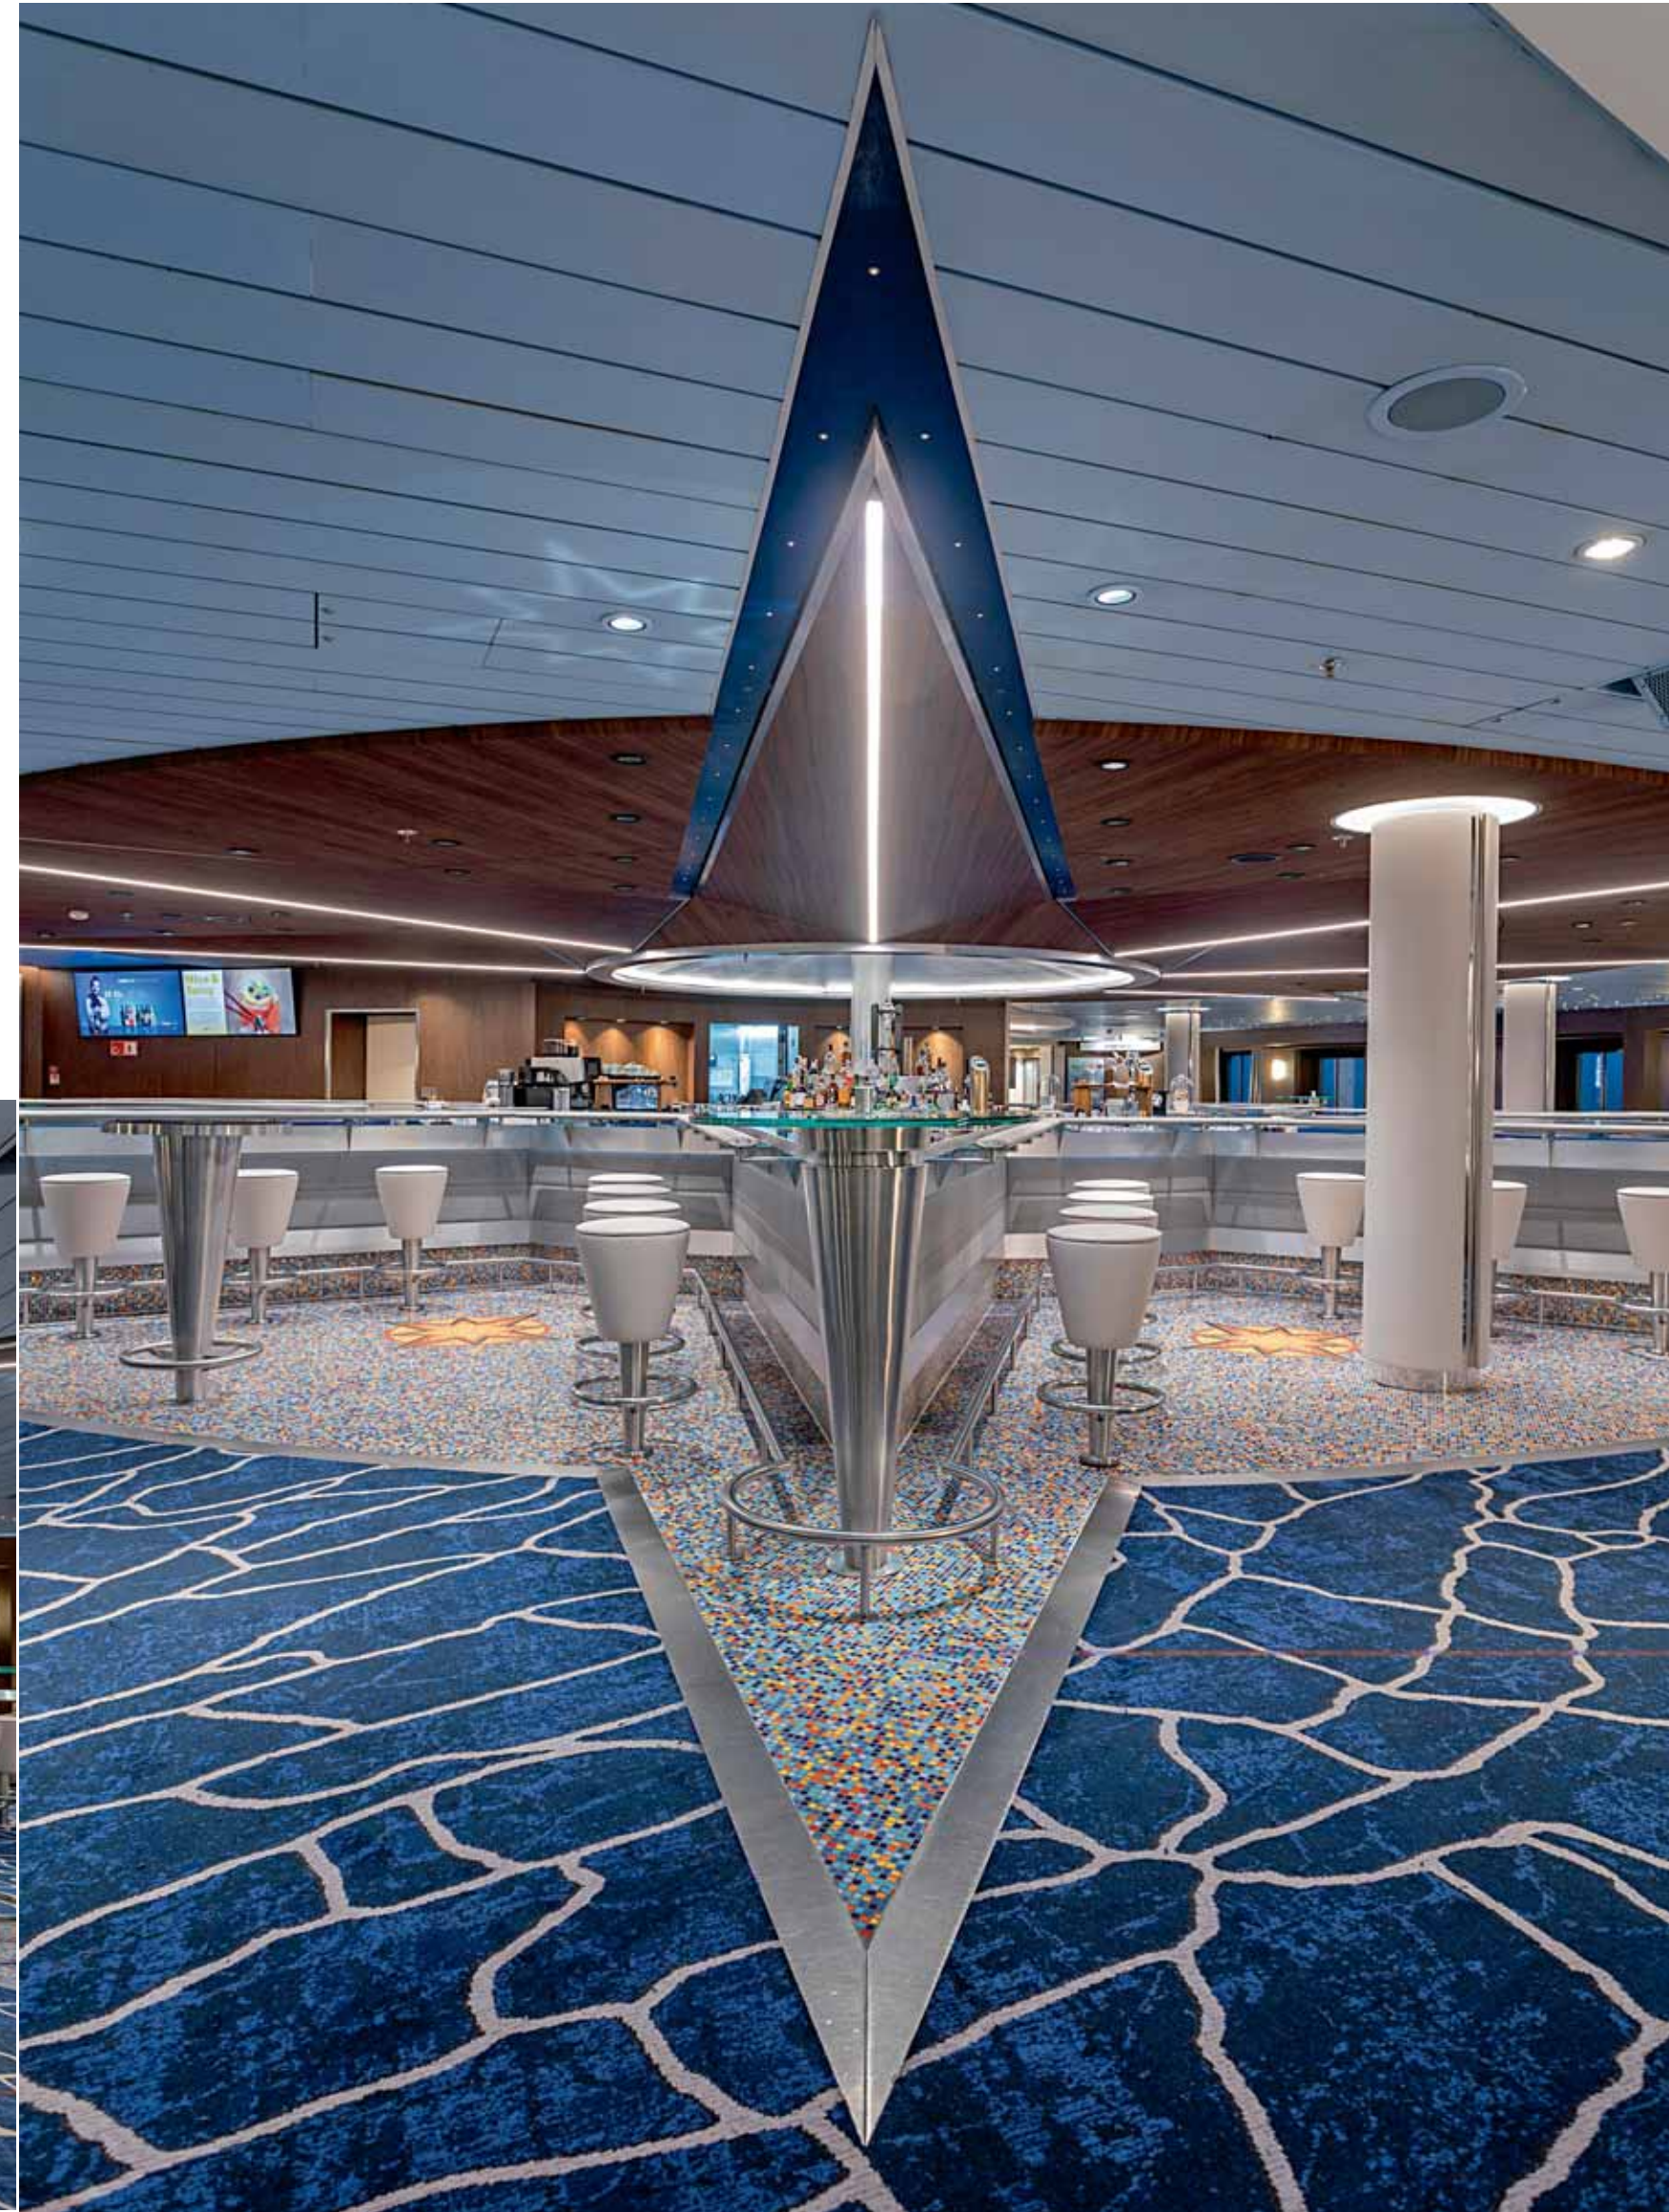

A Greek flair on the renovation of the cruise  
ship CELESTYAL DISCOVERY.

Decon successfully completed a major  
project, on time and with excellent results.

Two "new" decks and a steady course  
of inspiration and optimal execution

**D**ECON, with years of experience in the field of interior construction and refurbishment of ships, as well as a strong track record in major international projects, such as the RCCL Oasis-class cruise ships, MSC World-class cruise ships, and Celebrity Edge Class cruise ships, undertook the renovation of the

public areas of the Celestyal Discovery. The works lasted for three months, from January to March 2024, and were completed within the scheduled timeframe. The areas redesigned by DECON cover approximately 4,000 square meters and include: on Deck 9, the Sozo Beauty & Wellness Center, the Gym, the Casino, Café Nation, the Martini Bar & ➤

Lounge, the Taverna restaurant, and the Pizza Oven area. On Deck 8, the renovated spaces include the Star Bar & Lounge and the Thalassa restaurant. Decon, in collaboration with the project designers and the commissioning company itself, approached the project with the organization and consistency required for such complex and time-sensitive

undertakings. It provided services including detailed implementation design, construction, and final on-site installation aboard the vessel. All furniture and custom constructions were designed and manufactured at the company's facilities in Greece, ensuring full quality control and maximum flexibility to meet client requirements, in accordance

with the plans and specifications of the project's lead architect. With a history spanning over six decades, DECON has established itself as a benchmark in the shipbuilding and ship repair industry. Its philosophy is rooted in a commitment to quality, innovation, and complete customer satisfaction, treating every

project as a unique endeavor. DECON offers a wide range of services, including carpentry, custom constructions, metal and lightweight furniture, prefabricated WC units, insulation, glass structures, painting, wallcoverings, and teak deck installations, among others. Additionally, it applies the "Turnkey Concept" approach, undertaking full project

**A MESSAGE ON THE CAPABILITIES OF GREEK SHIPBUILDING AND REPAIR**

# — DECON • A 60-YEAR HISTORY

All furniture and custom constructions were designed and manufactured at the company's facilities in Greece, ensuring full quality control

execution from start to finish. The company is certified with ISO 9001:2015 for:

- Construction and installation of interior outfitting works on ships
- Provision of services (project management teams for turnkey deliveries)
- Manufacture of non-combustible materials

DECON's involvement in the Celestyal Discovery is not only a professional success but also a testament to the capabilities of the Greek shipbuilding and manufacturing industry. Setting its sights on new

challenges, DECON continues its activities in the cruise ship sector, participating in projects for major international shipyards and shipping companies.

Celestyal Discovery marks another milestone in the company's journey toward continuous development, innovation, and global outreach \_ values that define its strategic direction. For DECON, each project reflects the inspiration and passion of its people, who bring to life the dreams and visions of its clients. 🇬🇷

A BENCHMARK IN THE SHIPBUILDING AND CONSTRUCTION CHAIN
